

POWERLINE BPL --absoulutely NOT . Has Mr. Powell , or does Mr. Powell , consult with others before he opens his trap ?? And who's POCKET is he in ?? Follow the advice of the AMERICAN RADIO RELAY LEAQUE and DO NOT ALLOW BPL over powerlines. Consider the RFI it would generate into a stable RF system . PROTECT our radio frequencies as you should --- it's our MAIN system of communications for our country. And while your at the protection detail PLEASE ASK Mr. POWELL to step down , he's evidently not worthy of ,and to dumb, for this position. THANKS :O)
